

# Choose The Right Emergency Center for Your Child.

The St. John Hospital and Medical Center (SJH&MC) Emergency Center is the only one on the east side specializing in children's emergency care.

Our Pediatric Emergency Physicians and Nurses provide care for children and their families in a warm and friendly environment.

Some of the many illnesses we treat include asthma, seizures, severe cuts, burns, abdominal pain, fractures and poisonings. We are experienced in the resuscitation of critically ill and injured children, as well as the treatment of a variety of other medical and surgical conditions.

The St. John Hospital Emergency Center has the experience, training and environment to respond to your child's needs quickly and expertly. Here are just a few facts to consider, the next time you need emergency care for your child:

1. All of our Pediatric Emergency Physicians are board-certified in both Emergency Medicine and Pediatrics.
2. We have a Pediatric Emergency area devoted entirely to the needs of seriously ill or injured children. This special area is designed to reduce stress for our pediatric patients and keeps them separate from adult patients.
3. We offer more than 50 pediatric specialties – from Pediatric Allergy and Asthma to Pediatric Surgery and more – available to provide specific, expert consultation for your child.
4. Our Emergency Center offers all private rooms.
5. The Pediatric area of the Emergency Center is decorated with kids in mind, to help ease the tension and fear that is often part of an emergency medical situation.

ST. JOHN  
HOSPITAL  
& MEDICAL  
CENTER

6. We care for nearly 25,000 children each year in our Emergency Center, and have the experience to treat virtually every situation.
7. We have a large inpatient pediatric unit, including a Pediatric Intensive Care Unit and a neonatal intensive care unit so that extended care for even the most ill or seriously injured children can be provided right here.
8. Our Pediatric Emergency Center is a referral center for the eastside of Detroit and the Detroit suburbs – which means we can handle the most serious of emergencies.
9. Our Pediatric Emergency Physicians and Nurses are experts in providing pain relief for children undergoing procedures in the Emergency Center.
10. We are verified by the American College of Surgeons as a Level II Pediatric Trauma Center.

22101 Moross Road (just west of Mack Avenue)  
Detroit, MI 48236
