

Being uninsured can happen to anyone

But what most people don't know is that options do exist. As a leader in your community or organization, whether civic, private or faith-based, you can make a difference.

Learn about low-cost or free health care programs for the uninsured, including benefits and eligibility, and how to help someone you know enroll in these programs.

Hear first-hand about one person's experience with being uninsured.

Learn about the move to reauthorize SCHIP — critical legislation for America's uninsured children.

Date: Thursday, May 24, 2007
