

IN THEIR OWN WORDS...

From the beginning, I couldn't talk, for a long period. I learned my ABC's and 123's. My stroke was three years ago.

*Bob L.
Grosse Pointe*

When someone new comes in, they see we are not fully cured, but they also see our strengths, too.

*Richard L.
Grosse Pointe Woods*

I don't have a speech problem. I come for support because everyone has had a stroke and that helps me.

*Peggy R.
New Baltimore*

MISSION STATEMENT

The mission of St. John Rehabilitation Services is to be consistent with the gospel imperative and the spirit of the Sisters of St. Joseph to serve our neighbor. We will promote physical, mental, social and spiritual health for all those seeking our rehabilitation services, including the poor and those with special needs. Our concerns for the value of all human life and the dignity of each person leads St. John Rehabilitation Services towards the excellence in the treatment of all those we serve and enhancing the quality of the environment for those who receive and provide rehabilitation services.
