Detroit, Michigan

Hiroshi Yamassaki, MD
Medical Director, Interventional Cardiology Fellowship Program
St. John Hospital & Medical Center
Detroit, Michigan

Gerald I. Cohen, MD
Welcome & Introductions

Thomas A. Lalonde, MD; Steven E. Minnick, MD

**COURSE OVERVIEW**

This half-day seminar will provide the primary care provider with a practical update on the evaluation and treatment of patients with a wide spectrum of cardiac disorders with a focus on the most common and serious conditions.

**PROGRAM OBJECTIVES**

The wide spectrum of cardiac disorders remains extremely prevalent in our contemporary society. These patients often present to their primary care provider for both initial and ongoing management. 2016 Update in Cardiology will provide the primary care provider with a practical update to better care for these patients.

Those attending will leave with a better understanding and improved working knowledge in evaluating and treating those with the most common cardiac conditions. Faculty will focus on the current evaluation and treatment of Obesity, Syncope, PAD, CAD, Hypertriglyceridemia, CHF, Atrial Fibrillation and Aortic Stenosis.

**DISCLOSURE**

Consistent with the ACCME Standards of Commercial Support, speakers for the conference are expected to disclose to you at the beginning of their presentation(s), whether or not they have any economic or other personal interests that create, or may be perceived as creating, a conflict related to the material discussed. This policy is intended to make you aware of speaker’s interests, so you may form your own judgments about such material.
